SERVICE DETAILS

MY FIRST GROOM	Building confidence, one paw at a time Gentle Introduction for Puppies & First-Time Grooms This special session is designed for puppies or dogs new to professional grooming, providing a calm and positive first experience to help them feel safe and confident. We take the time to slowly introduce your dog to grooming sights, sounds, and sensations — making future appointments stress-free for both of you. Includes: • Gentle wash and blow dry • Soft brush out • Nail clipping • Ear cleaning • Eye and face tidy • Desensitisation to clippers and scissors (no body clipping in this session) This is a training-style groom to help your dog become comfortable with professional grooming — not a full haircut. Recommended for puppies over 12 weeks (after vaccinations) or any dog needing a patient, gentle start

Our Dry Groom is a cost-effective option for pets who just need a quick clip.
